STAFFAN HOLM

FORWARD

Solid ash, steel pipe, enamel paint.
This versatile wall-hanged clothes hanger is just as much a sculpture as a clothes hanger. The rings inspire to be freely placed on the wall and will lighten up any room with its playfulness and interesting combination possibilities.

TOSHIYUKI KITA

Technology by Inax

FURO KITA

Furo expresses a concept of returning to your own natural self by immersing in a creamy fine foam of water. It is a proposal of a new style of bathing experience in a tub full of foamy bubbles over half filled hot water realized by the technologies of INAX. Bubbles not only keep the temperature of the hot water but also retain the steam avoiding dispersion so that the bathtub could even be placed in a living room.

7

KENNETH COBONPUE

BLOOM

Welcome to organic beauty of the garden indoors. Inspired by a delicate blossom, Bloom is composed of hundreds of fine running stitches that radiate from the center of the seat.

8

KENNETH COBONPUE

CHIQUITA ARMCHAIR

This unique armchair is constructed of rattan poles which sit upon a polyurethane cushion. Molded steel base covered with reconstituted brown leather. Poles sink softly when sat upon. Available in red, black, and silver. Manufactured by Kenneth Cobonpue in The Philippines.

9

KENNETH COBONPUE

OPERETTA

Inspired by the simple but grand architecture of concert halls, the Operetta pet lounge will house your pet in style.
