MOVEMENT 8

Blazing trails on a global scale with their groundbreaking designs, Movement 8 is firmly establishing the Philippines' reputation for modern design. Born from a shared vision by Ely Pinto-Mansor and Budji Layug to band together the country's best talent and push the boundaries of creative design, Movement 8 and its members have amazed and impressed audiences with their striking and original creations crafted from a mix of traditional local materials. The group's bid to establish the Philippines as serious international player has resulted in the successful repositioning of original made products in the high-end market.

Movement 8 is composed of a core group of eleven young designers including Ely Pinto, Budji Layug (Interiors/furniture), Kenneth Cobonpue (furniture), Ann Pamintuan (furniture/jewellery), Tony Gonzales (accessories), Tes Pasola (mixed media), Maricris Brias (pillows, textiles), Luisa Robinson (accessories), Renato Vidal (baskets), Milo Naval (furniture) and Carlo Tanseco (product design).

After highly successful run at the Salone Internazionale del Mobile at the Milan Fairgrounds in Italy last April, Movement 8 is preparing for this year's upcoming Furniture and Apparel Merchandise Exchange (FAME) where the group is set to demonstrate their myriad talents and vision once more. The Philippines, like the rest of the world, is set to expect great things from Movement 8.
